Esperanza Rising (Scholastic Gold) Houghton Mifflin Harcourt  
 Introduction to Business covers the scope and sequence of most introductory business courses. The book provides detailed explanations in the context of core themes such as customer satisfaction, ethics, entrepreneurship, global business, and managing change. Introduction to Business includes hundreds of current business examples from a range of industries and geographic locations, which feature a variety of individuals. The outcome is a balanced approach to the theory and application of business concepts, with attention to the knowledge and skills necessary for student success in this course and beyond.

**Introduction to Information Retrieval** Cengage Learning  
 New Testament Greek Primer has established itself among Greek instructors as a popular and dependable guide to the Greek of the New Testament, appreciated for its accuracy, coverage, and well-designed exercises. Students appreciate easy-to-read

explanations, English grammar bridges, user-friendly layout, and copious tables, charts, and indexes. Retaining the basic form and content, the third edition builds on this solid reputation with enhanced discussion, organization, examples, and exercises. The appendix on English grammar aids English-challenged students. Pictures from the author's extensive travel overseas illustrate the ancient Greco-Roman context of the Greek New Testament. Other resources include language lessons elaborating translation and morphology issues, convenient vocabulary reviews anticipating vocabulary exams, an answer key, and indexes of vocabulary, principal parts, paradigms, and subjects. The method is deductive and the goal focused on grammar and exegesis. An early emphasis on the noun system transitions to the principal parts of the verb, followed by moods, infinitives, and participles. Two lessons on the MI-verb system conclude the work. Examples and exercises are taken directly from the Greek New Testament.

North American short stories enhance pre-intermediate students' reading skills, language learning, and enjoyment of literature. *Discovering Fiction, An Introduction*, has the same unit and chapter structure as the two higher level books, *Discovering Fiction Level 1* and *Level 2*. There are four units, each containing three stories that are related in terms of their theme; extensive prereading and post-reading tasks accompany each story. Unlike the other two books, however, an audio CD containing a reading of each story is packaged into each Student's Book.

An Introduction to Biblical Greek Grammar focuses on the linguistic and syntactic elements of Koine Greek to equip learners for accurate interpretation. Drawing upon twenty years of Greek teaching experience and the latest developments in linguistics and syntax, Harris introduces students to basic linguistic concepts and categories necessary for grasping Greek in ways that are clear and intuitive. This solid foundation enables students first to internalize key concepts, then to apply and build upon them as more complex ideas are introduced. Several features are specifically designed to aid student's learning: Key concepts are graphically coded to offer visual reinforcement of explanations and to facilitate learning forms and identifying their functions Key concepts are followed by numerous examples from the Greek New Testament Students learn how to mark Greek texts so that they can begin to "see" the syntax, identify the boundaries of syntactic units, and construct syntactic outlines as part of their preaching or teaching preparation Four integrative chapters, roughly corresponding to the midterms and final exams of a two-semester sequence, summarize material to date and reinforce key concepts. Here students are also introduced to exegetical and interpretive concepts and practices that they will

need for subsequent Greek studies and beyond. "Going Deeper" and "For the Curious" offer supplemental information for students interested in learning more or in moving to advanced language study. The accompanying workbook and video lectures (both sold separately) reinforce key concepts through additional contact with the material from each chapter of the grammar. All exercises in the workbook are taken from the Greek New Testament and the Septuagint and include extensive syntactical and exegetical notes to aid students.

*Introduction to Greek, Second Edition* is an introductory text to Classical Greek. It is designed for the first full year course and it concentrates on the basics in a way that allows the material to be covered easily in courses that meet three times a week over the course of two semesters. The focus of the text is on grammar with slightly altered readings drawn chiefly from the works of Xenophon and Herodotus.

*Concepts of Biology* Penguin

*Introduction to Neural Networks in Java, Second Edition*, introduces the Java programmer to the world of Neural Networks and Artificial Intelligence. Neural network architectures such as the feedforward, Hopfield, and Self Organizing Map networks are discussed. Training techniques such as Backpropagation, Genetic Algorithms and Simulated Annealing are also introduced. Practical examples are given for each neural network. Examples include the Traveling Salesman problem, handwriting recognition, financial prediction, game strategy, learning mathematical functions and special application to Internet bots. All Java source code can be downloaded online.

The Newbery Medal and Coretta Scott King Award-winning classic about a boy who decides to hit the road to find his father—from Christopher Paul Curtis, author of *The Watsons Go to Birmingham—1963*, a Newbery and Coretta Scott King Honoree. It's 1936, in Flint Michigan. Times may be hard, and ten-year-old Bud may be a motherless boy on the run, but Bud's got a few things going for him: 1. He has his own suitcase full of special things. 2. He's the author of *Bud Caldwell's Rules and Things for Having a Funner Life and Making a Better Liar Out of Yourself*. 3. His momma never told him who his father was, but she left a clue: flyers advertising Herman E. Calloway and his famous band, the Dusky Devastators of the Depression!!!!!! Bud's got an idea that those flyers will lead him to his father. Once he decides to hit the road to find this mystery man, nothing can stop him—not hunger, not fear, not vampires, not even Herman E. Calloway himself. Bryan Stevenson's incredible fight to end mass incarceration, excessive punishment, and racial inequality comes to life in this young adult adaptation of the acclaimed, #1 New York Times bestseller that was adapted into a major motion picture starring Michael B. Jordan, Jaime Foxx, and Brie Larson. In this very personal work--adapted from the original #1 bestseller, which the New York Times calls "as compelling as *To Kill a Mockingbird*, and in some ways more so"--renowned lawyer and social justice advocate Bryan Stevenson offers a glimpse into the lives of the wrongfully imprisoned and his efforts to fight for their freedom as the founder of the Equal Justice Initiative. Stevenson's story is one of working to protect basic human rights for the most

vulnerable people in American society--the poor, the wrongly convicted, and those whose lives have been marked by discrimination and marginalization. Through this adaptation, young people of today will find themselves called to action and compassion in the pursuit of justice. A portion of the proceeds of this book will go to charity to help in Stevenson's important work to benefit the voiceless and the vulnerable as they attempt to navigate the broken U.S. justice system.
