This course is based on my experiences with training hundreds of students for IELTS tests, I realized that a lot of students often face challenge with IELTS speaking test, A large number of students who are good in English communication also faced difficulty with speaking test as they were not prepared enough for each question. Thorough study of this book should not take more than four hours for a student; however in four hours the student can improve his/her score by at least 1.5 bands in speaking test. Going through this book in details will help one reduce the pauses or thinking time, help you to answer a question without sounding repetitive and will add better vocabulary to your speech. Let us all be aware that a lot of questions are common or

similar in nature in speaking test and it would be wise for the student to come up with the most suitable and accurate answer, rather than giving a too lengthy or too short an answer. Let us all keep in mind that we are allowed only a limited period of time to answer each question. That is the reason we must be prepared well in advance to ensure our answers are to the point that is crisp and precise, we also have to let the examiner understand that we use a wide range of vocabulary and are not repetitive. We must keep in mind that being repetitive or taking too many pauses can reduce our chances of getting a higher band. I am happy to present this book to you all, so that you can see what are commonly asked questions and what could be a better answer to the question this will definitely help you in scoring desired band in IELTS Speaking test. This book presents you with 160+ commonly asked questions in IELTS speaking test and their suggested answers, the answers have been presented in a manner that the Examiner will understand your depth in knowledge of English

Language. I strongly recommend my students to read each question think of a possible answer that they want to give and then read the answer that has been shared here, this will help you prepare an accurate answer for the expected question. As a bonus I have also added a list of Power words, words that can replace simple words and may help you in getting a better band. This book also has a list of Idioms and phrases, we must remember that use of better Vocabulary and Idioms and phrases will help you in both Speaking as well as Writing tests. What Can a Student Expect to Learn? Students will be able to enhance their knowledge, gain confidence in presenting answers to questions in IELTS Speaking test. You will learn how to construct and give the most accurate answer for questions. You will be able to maximize their chances of getting a high score in IELTS speaking test. You will be able to construct and present an answer even if they don't know much about the topic. You will be able to use advanced vocabulary and synonyms. You will be able to deal with difficult questions. You

will be able to present your ideas and connect it to the question asked

!!!! Most people would agree that an OK score in speaking is 5 or 6. Many students now realise that a score of 5 or 6 for speaking is not enough for their study requirements. Many students spend months preparing for the IELTS speaking test and still find it difficult to score 7 or higher. In fact some candidates actually score lower than they potentially could have scored. There are a few reasons behind this poor performance and these will be discussed in detail throughout this book, but one major factor is the lack of quality material available for IELTS speaking preparation. There are a number of IELTS speaking books on

the market but this book aims to break new ground by focusing on how to prepare for and achieve a speaking score of 7 (or maybe higher). All of the skills and strategies presented in this book are typical of a high scoring speaking candidate. This book is intended for anyone who intends to take the IELTS test; it will also help learners of English improve their speaking skills. It is suitable for both classroom use and self-study.
