Sweden's answer to Germany's people's car arrived some 20 years earlier, and quickly paved the way for safe and dependable vehicles. This book chronicles the evolution of the Volvo estate car, with every model featured. Whether

you are a Volvo lover or just have a general interest in cars, this book offers an informative and interesting look into a car that has had very little media coverage, despite its vast global sales success and the affection with which it is held by so many. This new edition has been updated with details of the latest models in 2019.

both in London and the rest of Britain, Dennis developed a tri axle Trident double decker for Hong Kong and then adapted the design as a two axle version for Britain. Orders came thick and fast between 1999, when the first Tridents for London entered service with Stagecoach and 2006, when the Enviro 400, a combination of its unified body builders, replaced it. In those years over two thousand of the type appeared in London, ordered by Stagecoach, First London, United,

Metroline, Metrobus, London General, Blue Triangle, Connex, Armchair, and Hackney Community Transport. The body work was by Alexander ALX400, Plaxton, (Precedent) and East Lancs, to two available lengths, while badging itself progressed although Trans Bus, until this troubled organisation was suspended in 2004 by todays Alexander Dennis. Versatile and personable, the Trident in all its forms lasted two decades in London, the last examples being withdrawn from

service in 2020.

Autocar Veloce Publishing Ltd
Winner of International Automotive Media Gold Award 2010 For all his fame as one of Hollywood's great actors, a world-class humanitarian, and the proprietor of a natural food empire, the late Paul Newman had another intriguing facet that was less known and perhaps closer to his heart than all the rest of his well-chronicled life. He was an avid, successful and well-respected car racer and team owner. This book

tells that story--from Newman's racing career, begun in earnest at an age when many race car drivers contemplate retirement; to the partnership he formed in 1983 with Chicago racing entrepreneur and team owner Carl Haas; to the impressive stable of automobiles he owned, from the Porsches and Ferraris to quirkier modified VWs and Volvos. This is the tale of a life full of passion and skill, of someone who entered the 24 Hours of Daytona at the age of 70 and made

his last professional race outing at 82; whose roster of drivers for Newman/Hass reads as a who's who of open wheel racing; and whose interest in cars extended from the likely suspects to old trucks and new hybrids. And then there's the charming pal who, when the incorrigible prankster Robert Redford had a miserably wrecked Ferrari dropped at his front door, returned the favor by having the car, crushed into a cube, delivered to Redford's living room. The anecdotes, the races, the

cars--all are here, adding up to what for many would be a full life, but for Paul Newman was simply another side of a man of talent, conviction, and enduring spirit.
