

AZAL COLLECTION

MATERIALS & CARE

**MATERIALS**

---

**POWDER-COATED ALUMINUM** provides the longest lasting and most color-durable quality finish available on virtually any type of metal and also helps prevent rusting. Powder-coated surfaces are resistant to chipping, scratching, fading, and wearing. Unlike steel or iron, aluminum is lightweight, yet sturdy and does not rust.

**COMPOSITE SLING** upholstery is used on the armchair seat. Sling is a composite mesh fabric woven using PVC-coated polyester threads to create commercial grade material ideally suited to the outdoor environment.

**CARE**

---

**POWDER-COATED ALUMINUM** requires little maintenance, however, regular cleaning is recommended to keep furniture looking new. Bird droppings, sap, leaves (organic substances), and other potentially corrosive substances should be cleaned as soon as noticed. Gently dust before cleaning to avoid scratches. Wash gently with a mild non-abrasive cleanser, rinse well, and let dry.

**COMPOSITE SLING** should be scrubbed with a mild, non-foaming, commercial cleanser. Rinse well and air dry.

**WARRANTY**

---

Oxford Garden warrants all outdoor furniture and accessories to be free from manufacturing defects in material and workmanship. Provided the furniture is assembled correctly and is subjected to normal use, Oxford Garden will cover your outdoor furniture under five, three and one year warranties, varying by material. For more details regarding the Oxford Garden warranty, visit [oxfordgarden.com/warranty](http://oxfordgarden.com/warranty).
