

## TEAK

### DESCRIPTION

---

Teak is a superior wood for the construction of outdoor furniture with a beautiful, dense grain. Left untreated, it will weather naturally to a beautiful silver gray color.

### DURABILITY

---

Teak has a high oil content making it resistant to rotting, bug infestation, and the effects of wind, rain, sun, and snow. The only thing stronger than the wood itself is the mortise-and-tenon joinery holding it together. The precision craftsmanship of our mortise cuts and tight-fitting tenons is exceptional. Under normal conditions and if used as intended, the expected lifetime of Oxford Garden shorea wood products is fifteen years.

### CARE AND MAINTENANCE

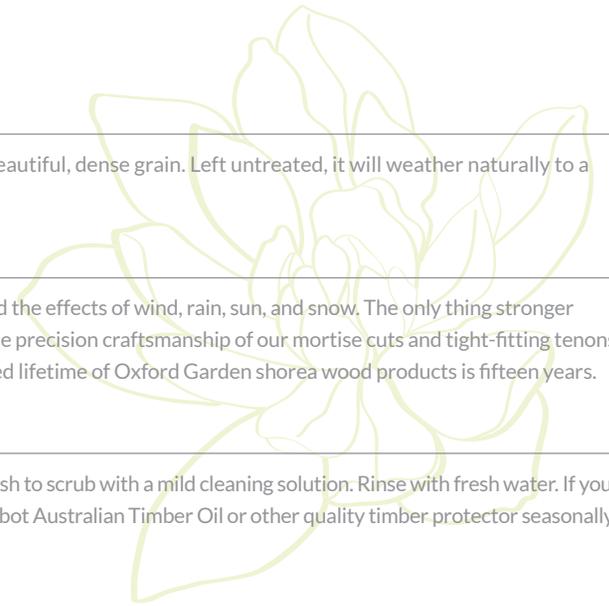

---

For seasonal cleaning rinse the wood well and use a sponge or soft bristle brush to scrub with a mild cleaning solution. Rinse with fresh water. If you wish to slow the graying process or enhance the natural wood color, apply Cabot Australian Timber Oil or other quality timber protector seasonally.

### WARRANTY

---

Oxford Garden warrants all outdoor furniture and accessories to be free from manufacturing defects in materials and workmanship. Provided the furniture is assembled correctly and is subjected to normal use, Oxford Garden will cover your outdoor furniture under a five, three, or one year warranty as applicable. For more details regarding the Oxford Garden warranty, visit [www.oxfordgarden.com/warranty](http://www.oxfordgarden.com/warranty).
